ARGOWELD

Established 1984

Quality Policy

ARGOWELD is committed to meeting & exceeding all our stakeholders' expectations. Our commitment to Quality and the stated objectives is achieved by:

- Complying with Client and legislative requirements and statutory obligations.
- Identifying process and criteria to continually improve quality while applying effective applications.
- Ensuring resources and information are available to support implementation, maintenance and continual improvement.
- Improving workers skills, awareness and knowledge of the quality system through education and training.
- Continually improving the effectiveness of our quality management system through client feedback, monitoring of this quality management system is consistent with ISO 9001:2008.

Our Objectives

- **CLIENT FOCUS** - Ensure that the organisation understands current and future client needs, meets and monitors their requirements through effective feedback mechanism and continually strives to exceed the clients' expectations.
- **INVOLVEMENT OF PEOPLE** - Ensuring that full involvement of all staff in the success of the organisation is achieved, and that people's knowledge and skills are developed through continual training and development to meet their own and the organisation's goals.
- **PROCESS MANAGEMENT** - Ensuring that all key processes and associated resources are effectively understood while being managed, maintained and controlled through meaningful producible evidence and effective communication to add value to the organisation and our clients.
- **SUBCONTRACTOR / SUPPLIER RELATIONSHIPS** - Ensuring our subcontractors and suppliers meet the needs of both the organisation and our clients insofar as quality and delivery are maintained while promoting a mutually beneficial relationship to develop, and achieve agreed goals and objectives.

Quality Assurance

ARGOWELD is the Company of choice through innovative design, development and management of our people and equipment. Ensuring the safest and highest quality services to our customers.

ARGOWELD provides technical solutions conforming to all relevant Australian Standards. We have a robust internal quality management system compliant to AS/NZS ISO9001 and Environment compliance to ISO 14001.

Our unique culture encourages continual improvement throughout all facets of the business and this is why we are the preferred Company for many of our customers.

RYCO Hydraulic Hoses

RYCO manufactures high quality, abrasion resistant and accredited hydraulic hoses covering a broad range of international standards. RYCO hydraulic hoses provide unparalleled performance, safety, and longevity.

RYCO hoses are designed and engineered for maximum safety, leak-free performance and exceptional productivity and reliability.

We offer many different hose types and pressure ranges to suit a wide variety of applications.

No matter your pressure system's needs, RYCO has you covered.

RYCO Hydraulic Fittings

(AH: 0447 828 836)

RYCO manufactures hydraulic hose fittings in many different styles and sizes, with a wide range of thread and connection types to meet global demand and industry specifications. RYCO hydraulic connectors incorporate world leading technologies that provide superior performance and unparalleled quality.

When the hose for an application has been selected, it is crucial that the hydraulic fittings to be used are designed specifically for that hose. We manufacture hydraulic hose fittings in many different styles and sizes to match RYCO hydraulic hoses, with a wide range of thread and connection types.

Our hydraulic fittings range incorporates cutting-edge technologies to ensure optimal performance and reliability. We offer a huge range of fittings which are ideal for use across a variety of hydraulic assemblies, providing port-to-port solutions to meet your needs.

RYCO is also setting the standard of JIC fittings with our JSEAL™ range, which provide up to double the working pressure of other standard JIC connections.

RYCO Couplings are available with a wide range of different thread connection types, including:

BSPT / BSPP		JIC / JSEAL™		UNO		SAE
-------------	--	--------------	--	-----	--	-----

Design & Drafting

ARGOWELD has aligned with our Supplier who has a team of engineers and drafters who are highly proficient in using up-to-date 3D engineering software; such as AutoCAD, Inventor 3D, Space Gass, Limcon & Autodesk Inventor Professional. This type of capability provides us with a unique and compelling advantage over our competitors and ensures accurate integration of information is translated to our workshop floor.

By managing the entire design and engineering process we are able to adequately control the program, costs and quality. With this in mind it enables us to consistently deliver projects on time and within budget.

**Full turn-key
solutions from
design to construct**

Engineering / Fabrication

- Chassis Splits & Modification
- Chassie Splits & Modification
- Aluminium Tub R&M
- Tub Change Overs
- Hardox Bisalloy Tipper R&M
- Diesel Tanks, Bull Bars, Tailgate R&M
- Pin & Bush R&M
- Hydraulic & Cylinder R&M
- Civil Wear Packages
- Hard Facing R&M
- 4.5T Trailer Manufacture
- Pipe spauls & Irrigation
- Handrails & Catwalks
- Chute, Hoppers & Ducting
- Grain Cleaning & Handling Solution
- Cast Steel & Ali R&M
- Stainless Steel tables
- Galvanised Hanging meat rails systems
- Custom engineered steel skid
- Elevators
- Structural steel & plate
- Chutes, hoppers, conveyors, workshop
- Pump Stations, Steel piping & Spooling incl valves, pumps, flanges fitting couplings
- Tank construction incl fluid storage
- Pontoons, gang ways, walkways
- Hydraulic & Cylinder repairs
- Aluminium Boat & Trailer repairs

Fabrication Specialists

Established in 1984, ARGOWELD are a South Australian owned and operated company providing a range of Products and Services to the Resource, Civil & Construction, Transport, Marine, Aquaculture / Agriculture, Food Processing and Funeral Services Products.

Our Engineering and manufacturing facility at Gawler Belt, South Australia utilises the latest technology, which provides extensive capacity and capability in the areas of processing, Stainless Steel, Aluminium and Mild Steel, full turn-key fit outs and surface treatment. ARGOWELD will manufacture to any specification, and we specialise in the customising of our existing designs to suit specific requirements.

Our policy of 'Clients for Life' is something that all ARGOWELD employees take very seriously to ensure a strong client relationship and the on-going success of the business. The fostering of client relations and endorsing a 'can-do attitude' throughout ARGOWELD is of paramount importance as our mission is to be recognised as a manufacturing market leader in SA.

ARGOWELD's versatility and experience is testimony to its capability to deliver projects at very short notice. ARGOWELD has a fully specialised and certified team in conjunction with our Contractor Alignment in South Australia.

The Leisure Line

ARGOWELD Smokers are used by Restaurants and Competition Cooking Teams across Australia since 2018

Custom designed to your requirements

From your landing we can design and build you a customer walkway which leads to your own private pontoon which has a hard cover roof with areas to moor you boats or jet skis, complete with a stainless steel bar, benching and storage space with overhead storage and hanging wine racks.

Comes fully equipped with your custom designed smoker.

Offset Smokers

THE STANDARD DRUM SIZE RANGE IS:

- 600 x 1200 1 or 2 door with 2 shelves per door
- 750 x 1800 2 Door with 3 shelves per door
- 900 x 2500 3 Door with 3 shelves per door
- Custom Design for large Commercial Businesses
- Custom Vertical Drum Smokers
