Roadwest RWT · Heavy Duty Tri-Axle Dolly

# RWT Dolly

## RWT Dollies : Tri-Axle (200) · Tandem (180)

The Roadwest series of Dollies are leaders in their class, with a solid reputation for quality, long lasting construction and reliability. All components are computer profile cut for neatness and accuracy. These models can be manufactured in a range of sizes or specifications to suit your needs.

### TRI-AXLE STANDARD FEATURES

- Tri-Axle : Sandwich frame construction, chassis is abrasive blasted prior to painting, 2 pack urethane primer and paint.
- All wiring in electrical loom and connections using Deutsch double 'O' ring sealed plugs.
- Custom manufactured to suit individual requirements.
- Fully welded chassis to eliminate corrosion.

### TANDEM STANDARD FEATURES

- Tandem : Reinforced RHS, chassis is mechanically cleaned prior to painting, 2 pack urethane primer and paint.
- All wiring in electrical loom and connections using Deutsch double 'O' ring sealed plugs.
- Custom manufactured to suit individual requirements.
- Fully welded chassis to eliminate corrosion.

## Roadwest RWT Dolly · Tri-Axle and Tandem - Standard Equipment

- Fully welded chassis for added strength, reduced maintenance, longevity and improved corrosion resistance.

- Electrical harness enclosed in mesh shroud plus Deutsch plug joiners and with airlines in spiral wrap and tough PVC sleeve where susceptible to damage.

- Grommets protect all lines and cables when passing through chassis sections plus pinch grip fitted for abrasion protection.

- Bolt in 'Tow-Eye' (Tandem model only).

- Multiple grease lines banked from ball race.

- Tensioned rubber or radius plastic mudguards fitted.

- Rear light bar – bolt on part for easy replacement if required.

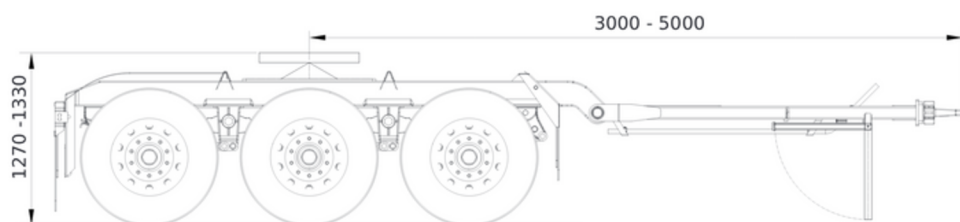

- Air, electric and hydraulic lines angled through draw bar for ease of coupling.

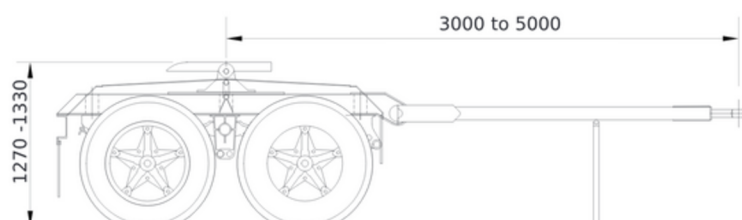

- Tri-axle dollies sandwich frame manufactured from Domex 700 steel for strength and long life.
